washingers the Senate took up the sundry civil-appropriation bill, the pending quastion being on the amendment (recommended by the Committee on Appropriations) reducing the appropriation for the improvement of the harbor of Philadelphia from \$600,000 to \$300,000. In the course of the Hardasion Afr. Yest charged Mr. Frye with responsibility for the superbounty. The other day, Mr. Vest continued, the Senator from New Hampshire rushed francisch on the May and the Senator's cloquence cased to reverberate when a despatch of the purpose of asking amexation to the United States. The Senator from New Hampshire rushed frantically into this chamber and offered resolutions for the immediate and unconditional annexation of the Hawaiian Islands—with 90,000 inhabitants, about 4,000 whites, and the distitution of leprong firmly established in the midst of these bilesful islands.

Now we are told by the morning papers. The Senator containing appropriation of the senators containing approsent the shelf of the purpose of the morning papers. The sheriff, accompined by two hundred areas they are told by the morning papers.

The sheriff, accompinied by two hundred men, marched to the railway station, followed by a great criwd. When the Lawrence train arrived sixty men were about but they carried no arms. The sheriff had nothing to do.

At 2 o'clock F. J. Chase, Governor Lewellyn's private ecretary, appeared in the hall, and after s brief address expressing the hope that the trouble might be adjusted amicably, read the following proposal from the Governor offers, in the interest of peace and barmony, that he will withdraw the State militia and not allow the Arrest and Disarm Them.

in the midst of these bills ful listades.

Now we are told by the morning papers there is to be another "conducting appropriation" for the late Queen of Hawaii of 830,000 a year, and a bounty for their isogar. Is it not strange for all this furore, of Jingolsm that we hear nothing of the Hawaiian coundercial company, an immense corporation, 00 per cent. of whose assets consist in sugar plantations on the Hawaiian islands, and the stock of which is owned almost entirely by Claus Spreckies? That stock is toody selling at normalial figures, and it sunexation takes place millions on millions will be put in the pockets of men who own this stock.

We are hy this "continuing appropriation" for Harwii on a system invented by the Senator from Maine (Mr. Frye) standing on a volcano. Let the textmeney of the peoplegush forth in a continuous, layleh stream, no matter if the treasury be depleted and bankrupt. Mr. President, I do not propose to controvert a single argument fered with by the l'opulists, providing allproceedings commenced by the Republicans arising from the urrest of Ben Chich
be dropped, and Fopulist members and
employes be not disturbed by the arrest
of officials or otherwise and the sheriff of

THE HAWAIIAN SITUATION The Case as Regited to a Bangor Gen tleman by One Long a Resident of Honolulu and Entirely Familiar with the Condition of Affales.

THE WING has been favored by the beceipt of a letter addressed to Hon. Moses Giddings, from a long time resident of Honolulu, and one conversant with affairs in the Hawaiian government for many years, which its readers will be glad to read as an exposition of the condition of affairs in the Sandwich Islands, and under which the ouestion of annexation to the United States has been brought up and is now under serious consideration. The etter, under date of January 29th, which was a personal one, contains the following in reference to the deposition of the Queen and the reigning government:
"You will doubtless read of the revolu-

tion now in progress here. Things have been going from bad to worse year after year, and as the natives have got more used 'to their power and authority' they have at last become unbearable. "The Oucen has been trying to usurn

Part of the trouble has been that the native legislators have had nothing at stake, and so have given their votes, or soid them, more likely, to the most injurious measares, such as licensing the sale of opium and granting a frauchise to the Louisiana lottery, for a term of twenty-five years. One of the last official acts of the Queen was to sign the lottery bill, doing so against the petitions to her of the mothers, business men, and all the best people of the island. She had the power to veto it. The people have tried to believe she f was good, have prayed for her and helped her in everything they could. "One thing is sure, the people will

—C W Coleman in Harper's Book

Most people are seeningly anxious to secure good fish ng to themselves which is very natural, and will expend a large sum in order to stock waters for private

use Naturally they select waters which are so situated that they can supervise them and therefore these waters are

generally confined or restricted. It is

so situated that the movements of the trout eliminer d, to be in no sense su

perior to artificial ponds and will in tince My idea is that general waters should always be selected for continuous stock

ing First find a good stream and test its qualities, and afterward it should be seasonably replemished — A great deal of

money is annually squancered in starting artificial pords and confined streams

which, if properly used wou I have given excellent returns. If you have

money to spend on fish culture do not waste it, but invest in a proper stock

mg of a good rubbe stream and keep it up. You will in time find that you are not obliged to pay out large sums in railroad fare and consequent

board at hotels in distant parts if you are judicious and persistent in stocking home streums —American Angler
